DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sandhu et al.-5,643060.

Sandhu discloses a polishing apparatus and method for determining film thickness (col. 7, line 1) of a substrate in various zones through measurement device/sensor (62) (interferometer, capacitance change, friction change, etc) which sends measurement to controller/processor (72/74) to adjust pressure of various zones of wafers through the use of adjustable chambers (106)(col. 8, line 8) for uniform polishing.
